policing the risk = reducing the opportunity

PredPol

- **is NOT:**
 - a replacement for knowledge, skills & experience
 - profiling of individuals
 - probable cause
 - new hardware or new hires
- **IS:**
 - assigning probabilities of crime in space and time
 - focal points for effective use of police resources
 - use of existing crime data

What PredPol means for you...

- Rule of Thumb: 6 times in box for 10 mins
- Dispatch still priority
- Don't ignore other places you know are high crime
- Use Incident Mapping and supplement with CAU reports
- Don't be glued to box boundaries, draw from your experience
